Subject: RE: Departmental Bylaws

We do not have departmental by-laws, but go by Academic Senate regulations in matters of personnel. Primary and joint appointees who are in the regular professorial or in-residence series vote on all recruitments, advancements and promotions. We have no joint appointees without voting rights.

Everyone, regardless of rank, votes on recruitment. For advancements and promotions, full Professors vote on every action, Associate Professors vote on actions dealing with advancement of Assistant Professors (including promotion to tenure), and Assistant Professors do not vote.

Please let me know if you need more information.

Elizabeth F. Neufeld
Chair, Biological Chemistry
