

Department of Health Services
Bylaws

All initial appointments, promotions, accelerations, and advancements to Professor VI and Professor Above Scale will be reviewed by the entire faculty who will vote on each action. An elected committee consisting of five faculty members who are at the associate professor level or above will review and vote on actions involving ordinary merits. If the committee vote is not unanimous, then the dossier will come to a regular faculty meeting for review by the full faculty. In addition, any faculty member can request that a particular file be considered by the entire department, and all such requests will be honored. In these cases, the dossier will come to a regular faculty meeting for a review.

Approved at HS Faculty Meeting on April 7, 2009
