Childcare Subcommittee

The Faculty Welfare Committee is constructing a Childcare Subcommittee to address Childcare allotment issues. The subcommittee plan to look at look at models of other institutions that have successful daycare; as well as those who outsource like Stanford or Texas A & M. The subcommittee's first meeting will be in Fall 2006.

Is the Faculty Welfare Committee addressing the issues most important to you?

The Faculty Welfare Committee will be conducting a survey in the Fall 2006. Use this survey as a forum to voice your opinion. The information provided from this survey will give the Academic Senate and the Faculty Welfare Committee a better sense of faculty priorities when they advocate on the behalf of the Faculty with the University Administration.

The FWC will communicate the results of the survey to the Academic Senate leadership and to key committees within the Academic Senate to insure that it is reflected in their initial meetings with the new chancellor, as well as in their routine committee deliberations. So when you see the survey in Fall 2006 take a stance by filling out the survey.
